Education

- **Brock University** St. Catharines, Ontario
  Bachelor of Science - Computer Science (Honors) *Sep 2019 - April 2024*

Experience

- **Aramark Canada, Tim Hortons** St. Catharines, ON
  Cashier Customer Service *Mar 2019 - Mar 2020*
  - Provided exceptional customer service by greeting customers, taking orders, processing payments, maintaining a clean work area, answering questions, and ensuring a positive experience for all Tim Hortons customers.

Projects

- **Brock Interactive Training Engineering System (BITES)** *JavaScript/TypeScript, SvelteKit, Git*
  - Worked with a team to build a web application to enhance software engineering education through an immersive learning environment with multiple sources and libraries for students to study.
  - Followed Scrum procedures to work independently, attend meetings, and focus on high priority tasks.
  - Utilized several frameworks such as **Tailwind**, **TypeScript**, and **Svelte** to design webpages, and **Vite** as the development server.
- **Brock Plan 2 Eat** *Java, Android Studio*
  - Developed an Android app with a complete directory of food establishments at Brock University's campus.
  - Configured a chatbot using the **BrainShop API** to interact with users and suggest dining locations.
  - Implemented a secure login system, utilizing **Firebase Realtime Database**, enabling users to favorite their preferred dining locations.
- **Android Calculator** *Java, Android Studio*
  - Designed and developed an Android calculator that provides basic mathematical operations such as addition, subtraction, multiplication and division.
  - Implemented two distinct calculation modes for performing order-of-operations or left-to-right calculations.
- **Animated Screensaver Animation** *C++, Visual Studio*
  - Programmed a 2D screensaver animation utilizing **OpenGL** and **freeGLUT** to generate particle effects.
  - Incorporated features such as controlling animation speed, change particle size, and toggling particle collision.
  - Created two unique variations of the particle effect animations.
- **Discord Bot** *Python*
  - Developed a versatile Discord bot using **discord.py** with various useful features for users.
  - Implemented a range of commands for utilities such as poll creation, avatar retrieval, mathematical computation, word sorting, and image retrieval.
  - Further added a YouTube search command using **YouTube Data API v3**, providing video titles, channel names, view counts, thumbnails, and URLs.
- **Portfolio Website** *JavaScript/TypeScript, SvelteKit, Git*
  - Designed and developed a personal website to showcase skills, projects, and contact details.
  - Implemented responsive design for optimal display across all devices.

Skills Summary

- **Languages:** Java, Python, C++, JavaScript, TypeScript, HTML, CSS, SQL
- **Frameworks & Libraries:** SvelteKit, Tailwind CSS, Bootstrap
- **Tools:** VSCode, Git, GitHub, Figma, Firebase, PostgreSQL, Android Studio, Photoshop, Notion, Ubuntu
